

Bibby Tree Appeal 2010

If you get environmental, we will match it too....

Purchase a tree to support your environment and we will match it, making it 2 trees planted for the price of 1!

Bibby Line Group has purchased a plot for 150 trees in the Alledale Wilderness Reserve in Scotland for employees to purchase. This is an environmental initiative to help you give back to your environment.

Tree Facts

- One person causes about 10 tonnes of carbon dioxide to be emitted a year.
- One tree removes about 3/4 of a tonne of CO₂ over its lifetime. By cooling the air and ground around them, the shade from trees helps cool the earth's temperature.
- A single mature beech tree can produce enough oxygen for 10 people in a year.
- Trees renew our air supply by absorbing carbon dioxide and producing oxygen.
- Trees lower air temperature by evaporating water in their leaves.
- Over one given year, one hectare of mature woodland will absorb the carbon emissions of 100 average family cars.

Price for one tree - £10

You will receive a certificate of authentication and plot location of where your tree is.

Complete this form, attaching a cheque for **£10** made payable to '**Charities Trust**'.

Name Tree 1 _____

Name Tree 2 _____

Location _____ **Division** _____
